

JAK-300Z TREE SHEAR

6 to 21 ton (13227-46297 lbs) wheel loaders and 1300 kg (2866 lbs) lifting capacity telehandlers

Designed for large wheel loaders and telehandlers, JAK-300Z is an unbeatable power pack.

JAK-300Z IS A TRUE POWER TOOL FOR LOADERS AND TELEHANDLERS

JAK-300Z IS DESIGNED FOR THE DEMANDING USE FOR LARGE WHEEL LOADERS AND TELEHANDLERS, MAKING IT VERY SUITABLE FOR FELLING EVEN LARGER TREES. ITS SUPERIOR CUTTING POWER AND RELIABILITY ARE KNOWN TO BE WORLD-CLASS.

Developed for professional use, JAK-300Z cuts the wood to be harvested neatly and precisely at the desired point from ground level. The jaws of the JAK-300Z take an unmistakable grip on any wood. JAK-300Z cuts the trees neatly and precisely up to a thickness of 30 cm (11,8 in). With the wide 840 mm (33 in) opening, it is also easy to grab effortlessly and cut several small trees at once.

If necessary, the cutting blade below the shear can also be removed if the tree shear is to be used as an ordinary wood grapple.

JAK-300Z is also equipped with the fasteners desired by the customer. The use of the 300Z can also be diversified by equipping it with the Collector, Rotator, Felling support and the Rapid traverse valve.

JAK-300Z FEATURES
